Toronto Metropolitan University

Department of Aerospace Engineering

Engineering Design & Graphical Communication – AER 222

Spring 2022

DATE: June 8th, 2022

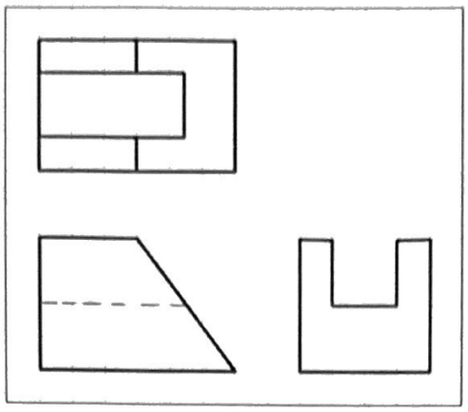
SECTIONS: 001 EXAMINER: Dr. Hamid Ghaemi

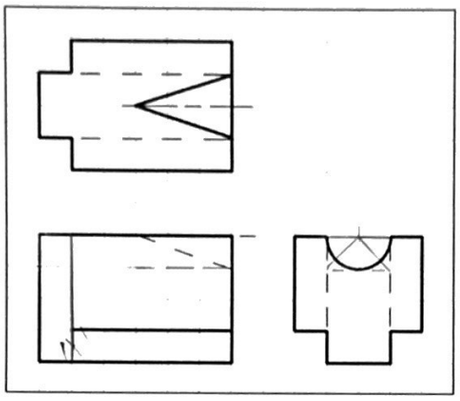
DURATION: 1 hour 50 minutes

INSTRUCTIONS:

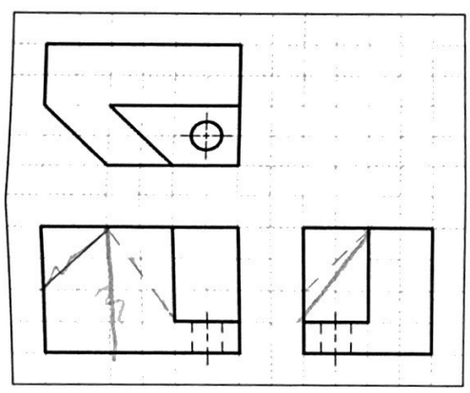
1. CLOSED BOOK EXAM Permitted aids: non-communicating electronic calculator and drawing instruments.
2. No cellphones, computers, or other communicating equipment allowed.
3. Candidates may not borrow or lend any materials while the test is in progress.
4. Answer ALL questions in the space provided. Use the back of the previous page if more space is required.
5. Percentage value of each question is indicated in the margin.

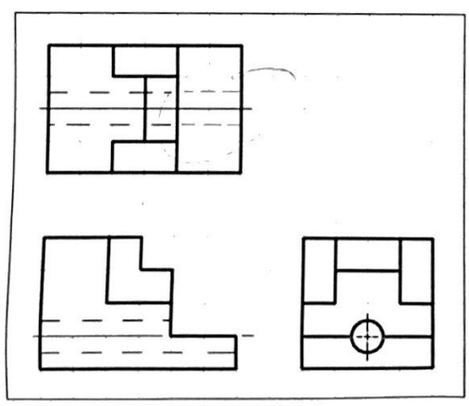
QUESTION 1. For the incomplete multiview drawings shown below, add the missing lines, using appropriate line types. Use the minimum number of lines necessary to correct the drawings. Each question is of equal weight. **20%**





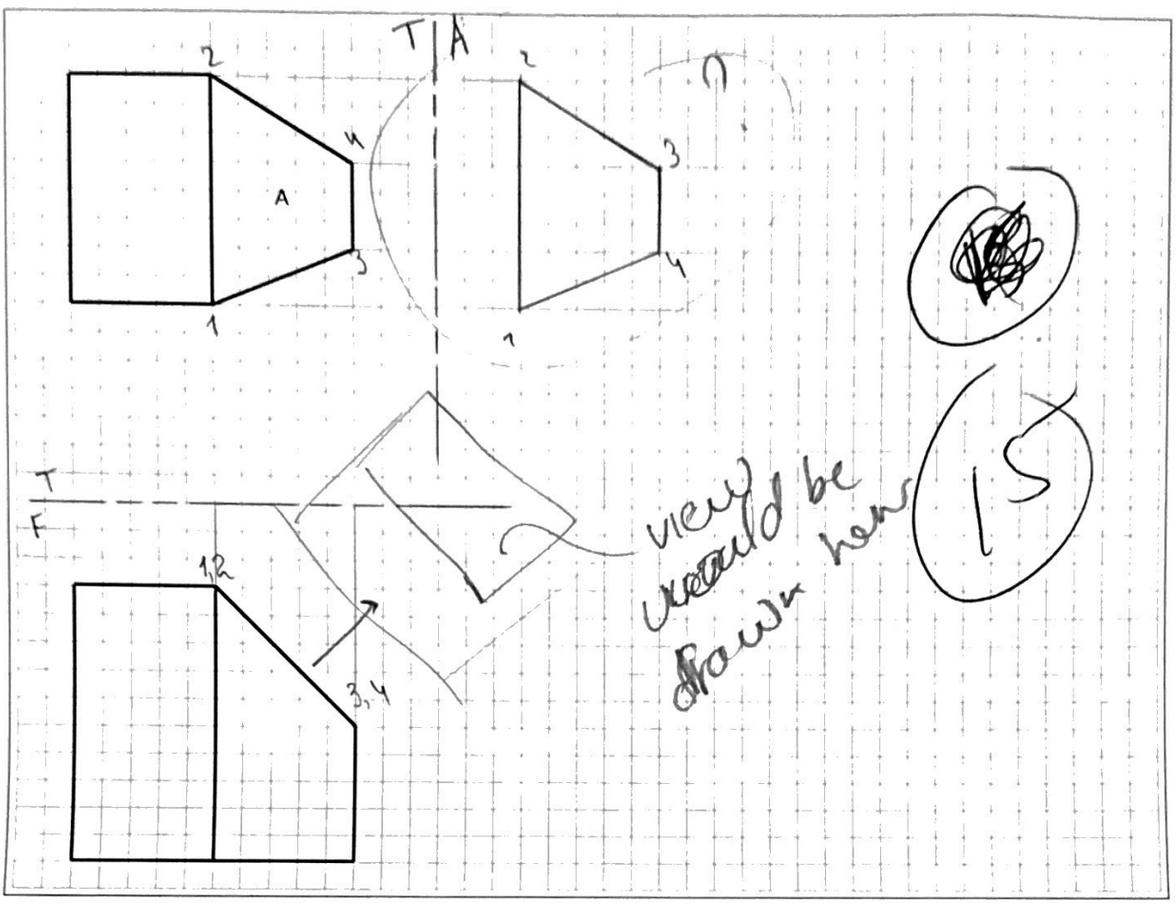
15





QUESTION 2:

For the object illustrated below, draw a <u>partial auxiliary</u> view of face **A** within the frame below. **30%**



QUESTION 3. For the part illustrated below, complete a multiview drawing (within the frame below) using the minimum number of views to completely describe the object shown. Use common line and drawing conventions. Indicate the scale used, but do not add dimensions. Remove all construction lines. **50%**
